## STANDARD GUARANTEE OF AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

Chicago, Illinois

Prime beef on the hoof is typified in the pose of UK Spotlight, the Champion Shorthorn and RESERVE GRAND CHAMPION OVER ALL BREEDS at the 1955 International. Note the width, depth, and general good quality of this flashy, profit-making junior yearling.

For the second straight year, Shorthorns dominated the open class Championship competition at the 1955 International. Just as in 1954, three of the six finalists for Grand Championship rating were Shorthorns. Here was ample proof of the great strides our breed has made in producing steers that meet modern demands . . . the exhibit was filled with steers that were impressive in their thickness, quality, and general conformation. The reds, whites, and roans showed greater smoothness and less wastiness than ever before, but even more important, Shorthorns demonstrated that packer wants can be met without sacrificing the size, thick-fleshing and good-gaining ability long associated with our breed and so necessary for profitable production.

UK Spotlight, shown by the University of Kentucky, Lexington, was bred by Luther K. Rice, Paris, Kentucky, who donated him to the University of Kentucky when three months old. He was sired by Kirkforthar Endeavour by Naemoor Origin and out of Willow Lee Marigold by Corrimony Emperor, and weighed 1155 pounds.

Evaluate the great sires in this pedigree and what prestige they would add to the herd. Kickapoo Perfect Chief stood second to our first prize senior bull calf at the 1955 International, he was also a member of our first prize get of sire and first prize Junior Get of Sire. We have used him generously; his first calf arrives in October.

# 1955 International Grand Champion Shorthorn Bull

**LEVELDALE CRITIC** - bred and shown by Mathers Bros., Mason City, Illinois - - sired by Leveldale Basis, is an impressive model of correct Shorthorn type. He is a great-headed, well balanced bull and winner of more top awards than any other bull on last year's show circuit. The Grand Champion Female of the 1955 International was also bred and shown by Mathers Bros. and was by the same sire. It was the first time in International history that two Grand Champions, sired by the same bull, were bred and exhibited by the same firm. Here is a wonderful example of the improvement in quality and uniformity of type evident throughout the entire Shorthorn industry.

# If the Trend is to Grass...

## The Trend is to Shorthorns:

More and more emphasis is placed on grass beef production in the United States and here is what the editor of the National Livestock Producer writes: "Some farmers have informed me that the reason more producers are switching to purebred Shorthorns is that they have been in other breeds for so long and have bred only for the block of beef to such an extent that their herds are losing some of their rustling qualities. With livestock programs shifting to a growing and grazing basis, that quality is very important. They have said that a Shorthorn bull crossed with some of these cows of other breeds seems to restore that quality . . . and they're buying Shorthorn bulls in greater numbers than ever before."

SUSANNA'S CUSTODIAN 14TH - Is exceptionally heavy-boned, with a deep, full-quarter, wide over the top and very smooth. He will put substance and scale on your cattle. He was first at the 1956 Illinois State Fair, first and Reserve Grand Champion at Wisconsin State Fair and second at Iowa. He was a member of our undefeated Junior Get of Sire and Pair of Calves at same shows. He is one of the best bulls ever to leave our farm.

with

It is a recognized fact that the fast growing animal is generally the one that puts on the most pounds at the lowest cost. Prices of Shorthorns sold as feeders each fall, prove that the reds, whites, and blacks all have a place. Buyers prove their preference for outstanding Shorthorns for a greater profit. This is proved by the results shown below:

# What are you Seeking in Females?

Here are the guideposts of Dr. A. D. Weber, internationally famous cattle judge: "type and character; roominess and thickness without coarseness; good weight for age; good udders; pleasing colors; evidence of thrift and strong constitution; a wealth of natural fleshing with just enough condition to give them a pleasing appearance without impairing their usefulness in any way; and style and levelness of line".

You'll find females of this type in this great annual International Sale - which is the continent's top consignment event of the year - to which breeders only offer the best. Get started on the right road to better production standards that will increase the profit and pleasure of your business by buying females at this banner sale of the year.

# Like Them?

## of course You Do!

Development of such Shorthorns is an art . . . and few of us ever attain the propensity of returning more than we are given. Yet here the example is profounded by the fact that the basis of such accomplishment is not beyond the reach of anyone who would take advantage of the opportunity afforded.

Vigilant selection, devotion to principles, unyielding faith in the future and application of practical methods of production by men who developed Shorthorns are the constant reminders that our task today is made easier. We have the material to further develop the world's most useful cattle . . . and should face the future more confident because of the simplicity.

That's the kind of Shorthorns you will find in this sale . . . bulls and females to provide security and confidence in the future.

*Yes, there's a Shorthorn in your Future!*

The fruit of the labors of the master breeders who developed Shorthorns to their modern appeal and utility bestows simplicity to anyone who would further expand this great breed. The task of development was fraught with problems, yet the unyielding faith and profound devotion to principles, constant attention to selection and matings, and application of practical production methods, as were felt and practiced by those breeders, are modern-day reminders that we face the future full of confidence . . . but without complacency.

Yes, there's a Shorthorn in your future . . . a bull with massiveness, character, bred-in-ability as a sire and possessor of beef-making capacity, weight-for-age, easy and rapid fleshing, and a frame to carry it. You'll find him in the Congress! Females, whose capacity as mothers in unsurpassed, modern in every feature and backed by celebrated ancestry. You'll find them in the CONGRESS too!
